Scalars 2019

Friday 13 September 2019

Parallel 6: Scalar potential - 1.40 (16:00-17:30)

- Conveners: Dr. Ivanov, Igor

time	title	presenter
16:00	Systematic construction of basis invariants for the most general two Higgs doublet model	TRAUTNER, Andreas
16:15	Classifying Continuous Symmetries in n-HDM	DAVISHI, Neda
16:30	The scalar potential of the 331 models: overview and prospect	COSTANTINI, Antonio
16:45	Non-standard spontaneous symmetry breaking in the scalar sector at eV and TeV scales	KORDIACZYNSKA, Magdalena
17:00	Geometry of Flat Directions in Scale-Invariant Potentials	KANNIKE, Kristjan
17:15	Two-loop corrections to the Higgs trilinear coupling in models with extended scalar sectors	BRAATHEN, Johannes
