<u>Singularity analysis</u> - Lecture hall: 0.06 (09:15-10:45)

time	title	presenter
09:15	The singularity structure of the discrete KdV and mKdV equations	WILLOX, Ralph
09:45	Full deautonomisation by singularity confinement as an integrability test	STOKES, Alexander
10:15	Singularity analysis and bilinear approach to some Bogoyavlensky differential difference equations	CARSTEA, Adrian Stefan
