Scalars 2015 / Programme Friday 04 December 2015

Scalars 2015

Friday 04 December 2015

Session II - CENT III (11:00-12:30)

| time | title | presenter |
|-------|---|--------------------|
| 11:00 | Non-linear Higgs Portal to Dark Matter | GAVELA, Belen |
| 11:30 | Rethinking Fundamental Interactions: From Asymptotic Freedom to Asymptotic Safety | SANNINO, Francesco |
| 12:00 | On the quantum structure of indirect BSM effects | POMAROL, Alex |

Session II - CENT III (14:00-16:00)

| time | title | presenter |
|-------|--|------------------------|
| 14:00 | Relaxing the Higgs with cosmology | GROJEAN, Christophe |
| 14:30 | General extensions of the Standard Model with new scalars | PEREZ-VICTORIA, Manuel |
| 15:00 | The most bizarre two-Higgs doublet model ever | SHER, Marc |
| 15:30 | Extended Higgs sector phenomenology and interference effects | WEIGLEIN, Georg |

Session II - CENT III (16:30-18:30)

| time | title | presenter |
|-------|---|----------------------|
| 16:30 | Conformal Electro-Weak Symmetry Breaking and Implications for Neutrinos and Dark Matter | LINDNER, Manfred |
| 17:00 | What 126 GeV Higgs mass means? | HABA, Naoyuki |
| 17:30 | Coincidence of Higgs Mass with one giving Corrected Barely Stability of Vacuum | NIELSEN, Holger Bech |
| 18:00 | Impact of Gravity on the Standard Model Vacuum Stability | BRANCHINA, Vincenzo |
