Warsaw Workshop on Non-Standard Dark Matter: multicomponent scenarios and beyond

Saturday 04 June 2016

parallel session - 0.03a (14:30-16:00)

time	title	presenter
14:30	Spectral features in the MeV gap	HRYCZUK, Andrzej
14:50	Detecting Asymmetric Dark Matter via Neutron Star Collapse	LINDEN, Tim
15:10	Looking beyond the paradigm: an experimental example from the ultra-high energy cosmic-ray physics	HOMOLA, Piotr
15:30	Searches for Non-Standard Dark Matter Interactions in the LUX and LZ Detectors	SZYDAGIS, Matthew

parallel session - 0.03a (16:30-18:30)

time	title	presenter
16:30	C & X-Band observations of the peculiar cluster MACS J0417.5–1154 from ATCA	SANDHU, Pritpal
16:50	Dark matter serach with XMASS	KOBAYASHI, Kazuyoshi
17:10	A Superheated, Scintillating, Liquid Xenon Bubble Chamber for Expanding the Direct Search for Dark Matter	SZYDAGIS, Matthew
