Discrete Painlevé - Lecture hall: 0.06 (16:30-18:20)

time	title	presenter
16:30	On q-Painlevé VI and the Geometry of Segre surfaces	ROFFELSEN, Pieter
17:00	An affine Weyl group action on the basic hypergeometric series arising from the q -Garnier system	SUZUKI, Takao
17:30	Recurrence relations for the generalized Laguerre and Charlier orthogonal polynomials and discrete Painlevé equations	DZHAMAY, Anton
18:00	A 3×3 Lax form for the q-Painlevé equation of type E ₆	PARK, Kanam
