Lagrangian multiform theory - Lecture hall: 0.06 (11:30-13:00)

time	title	presenter
11:30	Lagrangian multiforms and discrete and semi-discrete KP systems	NIJHOFF, Frank
12:00	Multiform Structures of Ordinary Difference Equations Satisfying Addition Formulae	RICHARDSON, Jacob
12:30	tau function, vertex operator and linearization scheme associated with Lamé function	ZHANG, Da-jun
