Twin Photon and Twin Higgs Phenomenology

Saturday 02 Dec 2017 at 14:15 (00h15')

Content :

I will present the phenomenology of twin photon and twin sector Higgs in the Mirror Twin Higgs framework. I will show the experimental constraints on the parameters of the model and discuss how that will allow us to confirm the Twin Higgs mechanism at colliders.

Primary authors : NAJJARI, Saereh (University of Warsaw)

Co-authors : Prof. CHACKO, Zackaria (University of Maryland, College Park) ; Prof. KILIC, Can (University of Texas) ; Dr. VERHAAREN, Christopher (University of California, Davis)

Presenter : NAJJARI, Saereh (University of Warsaw)

Session classification : parallel session 2
