Second main theorem in tropical Nevanlinna theory

Tuesday 20 Jun 2023 at 15:20 (00h20')

Content :

In the talk I will introduce a new version of the second main theorem in the tropical semiring and for tropical hypersurfaces. I will also present the inverse problem of tropical Nevanlinna theory. I shall show applications of tropical Nevanlinna theory for ultra-discrete Painlevé equations.
